

Which model can you read?

Compare the same words in two script fonts and one handwriting-path model. Choose readability before decoration.

Dancing Script

hello world

A lively typeface with changing letter heights.

Marck Script

hello world

A loose handwritten typeface with open forms.

Letterpaths

hello world

A joined lowercase path model, not a font file.

The model I find easiest to read _____

Dancing Script and Marck Script are typefaces; Letterpaths supplies pen paths. This PDF contains printed samples only, not installable fonts or brushes.
