

A place for every letter

Compare the short body, tall stroke and lower loop in this lowercase Letterpaths model. The same guides run through every example.

Solid line = baseline. Dotted line = top of the short body.

Short bodies

Letters that reach up

Letters that reach below

Groups describe this model: f reaches above and below, while p and q have their own shapes. School models and proportions can differ.

US Letter: actual size / 100%. A4: fit to page. Personal, household or one-classroom printing.

Letterpaths 1.0.2 lowercase model (MIT). No resale or redistribution. <https://cursive-generation.com/shop>
