

Space Vocabulary Sample Sheet

Read the space word. Trace the light model on the left, then write your own copy on the right.

Left: trace. Right: copy.

comet

comet

orbit

orbit

rocket

rocket

planet

planet

star

star

Print at 100% (actual size) on US Letter paper. For practice pages only, fit to A4 is also possible; it makes the writing guides slightly smaller. Font specimens show appearance, not stroke order or a certified school method. A learner who is new to cursive may need an adult to demonstrate a letter.

Personal, household, and one-classroom printing. Do not resell, upload, or redistribute the PDF. Font licenses are attached to the file; no installable font is sold.
